Jason Enns – Vice President

Jason Enns is a wealth management advisor for RBC Private Banking. With more than 24 years of experience, he works with families to ensure a formal foundation of human capital and financial strength is in place. In addition to a Bachelor degree from University of Regina, Jason holds a designation in Family Enterprise Advisory, Certified Financial Planning, and Personal Financial Planning. With a commitment to community development, years of service work include: coaching sports, service club membership, along with support of youth education. Jason's personal belief is that children and women are at great risk if the family dynamics break down. Informally, Jason has been an ambassador to the agency since 2012. His belief is that the agency plays a strong community role in preventive programs in addition to the welcoming beds for women and their children.
