

## **BOARD MEMBER BIO**

### **Ryan Schneider**

Ryan Schneider is a professional engineer with 20 years of experience in software development and consulting including executive, technology, operations and customer/outreach roles. In July 2018, Mr. Schneider was appointed President, CEO and Director of Computer Modelling Group, a publicly-traded software company serving the oil and gas sector with offices worldwide. Mr. Schneider holds Bachelor of Science and Master of Science degrees in Electrical Engineering from the University of Calgary.

Mr. Schneider has served as a volunteer on and off over the past several years. Ryan and his wife support numerous causes but many have a common theme - family, kids or food (the food bank more recently). Ryan believes that CWES' mandate for both prevention as well as helping families through current struggles will benefit our communities, children and families (and their families and relationships and so on) for the long-term.
